Repeat Drug Info View Document OK Cancel

- Editing frequency requires double clicking in the field. **If you single click and simply highlight the field, the first letter you type will erase the medication!**
- **Recover from this by using the keyboard command Control and Z.**
- If the Route is not included, this becomes a mandatory field for you to complete.
- If the Route is included, then it does not have to be re-entered.

You're ready to submit!
